

Antique Ware™ cabinet handle applications are . . . Limitless

Appliance Door and Pantry Door Spotlight

When the Rohde Family remodeled their kitchen, Debi Rohde was immediately drawn to the AntiqueWare™ display, knowing she found the spotlight she was seeking . . . serving piece handles for the refrigerator doors. Durable and six-inches-on-center functionality, even her husband, specializing in the art of metal manufacturing, was impressed. “We have welcomed many guests into our home,” Debi explains, “to include professionals and craftsmen, everyone fascinated with our beautiful AntiqueWare™ serving piece handles.” She continues, “Most impressive are the friends of our fifteen- year-old son who exclaim ‘Wow’ or ‘Those are so cool!’”

“Touches like these are what truly

make a house a home.”

“ . . . a unique and beautiful focal point

. . . heirlooms cherished

for years to come.”

Sincerely,

The Rohde Family of

Arlington Heights, Illinois
