

Antique Ware™ cabinet handle applications . . .

. . . are Limitless

Furniture Accents:

Give life back to an aged piece of furniture to accent it's unique place in the decor, such as this turn-of-the-century school bookcase, now used as a pantry. This AntiqueWare™ cabinet handle is a 19th century serving spoon, pattern "Windsor," naturally distressed, same as the cabinet, enhancing the many years of wear. Guests are intrigued and history continues . . .

"New stories are now written for this bookcase,

from newborn conversations. "
