

Antique Ware™ cabinet handle applications . . .

. . . are Limitless

Glass Door Cabinet Highlights:

Bring to light the focal point of the kitchen by emphasizing glass doors with a personal selection of AntiqueWare™ cabinet handles. Family-made leaded glass doors in this arts & crafts style kitchen form the foundation the owner desired, creating a personal masterpiece that was a “cut above the rest”, hence the choice in dinner knives, which also add to the stream-lined symmetry, enhancing the leaded outlines. One of the pattern selections, “Masterpiece 1932,” clearly defines this design.

“ Create a masterpiece

that is a cut above the rest.”
