

# *Antique Ware™ cabinet handle applications are . . . Limitless*

## Cabinet “Jewelry” Mirrored on Pantry and Glass Cabinets

“A well-dressed person wears jewelry that makes a statement or compliments their wardrobe. The jewelry of our cabinetry is the hardware. Being able to use silverware as hardware takes us to the next level of cabinet jewelry by incorporating antique and classic designs,” expresses Chuck Steele, CKD-CBD and owner of Inspired Designs, a cabinet and countertop studio in Mequon, Wisconsin. He further illustrates, “AntiqueWare™ allows the homeowner to select an architectural period, develop a theme or use family heirlooms as hardware. It is now possible to display your silverware instead of keeping it under cover in a drawer or silver chest. The uniqueness of silverware as hardware compliments the cabinets, your personality and the atmosphere of your entire home.”
