

Antique Ware™ cabinet handle applications . . .

. . . are Limitless

Wall Cabinet Focal Point:

“An extra place is set” is the unspoken greeting behind this kitchen owners AntiqueWare™ design. With her first love being cooking, the pattern selection was obvious, “First Love 1937.” Flanking the left are cabinet handles of the salad fork and dinner fork. Neighboring on the right, the dinner knife and teaspoon. Bringing up the middle are serving pieces, the gravy ladle and cold meat fork. The complimenting handles for the remainder of the cabinets show how flattering the combination becomes.

“An extra place-setting is displayed,

warmly inviting guests and inspiring the chef.”
